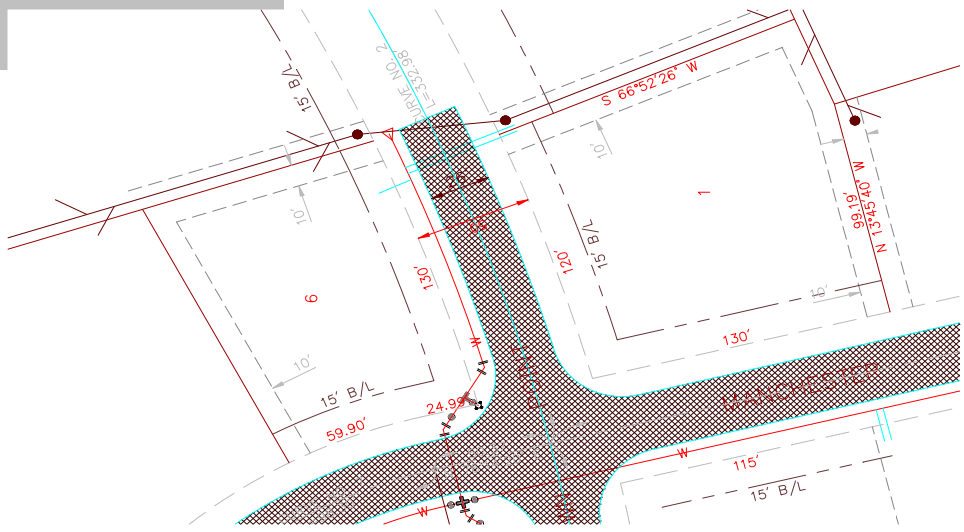
NORTHRIDGE 7 SUBDIVISION

HIGHLIGHTS:

- **Client: Shawnee Development Co.**
- **Project Year: 1995**
- **Project Cost: $80,000.00**

As Engineering Consultant for the Shawnee Development Co., our staff was totally responsible for the design and development of water, wastewater and paving plans for Northridge 7, a subdivision of the City of Shawnee.

Upon determination of the scope of this project, members of our staff prepared a cost analysis to determine the feasibility of the project.
Topographical surveys were conducted and construction plans and specifications were prepared for the complete construction of the subdivision.


Members of our staff provided experienced construction administration including amendments and change orders. Upon completion of the project, as-built plans were prepared and provided to the Client.
